Oct 2020

CGPA: 9.0 / 10

### PROFESSIONAL EXPERIENCE

#### Ameriprise Financial

Senior Financial Advisory Analyst

Jan 2023 – Aug 2025

- **Recognition:** Ammy Award (2025) for Operational Excellence (selected among 200+ organization members)
- **Data-driven process optimization:** Saved 1400 man-hours annually through real-time performance monitoring using self-developed Power BI dashboards; analyzed associate productivity metrics, identified improvement opportunities, and created SOPs and video training library
- **Advanced Excel & automation expertise:** Eliminated 16 hours of task delays by automating pre- and post-meeting workflows using Excel VBA; streamlined transaction processing, CRM accuracy checks, and account segmentation, improving turnaround time and compliance adherence
- **Compensation & compliance analytics:** Achieved 100% RMD compliance through Power BI exception-monitoring dashboard with automated age-based checks; prevented IRS penalty exposure (\$2,000 annual savings) through proactive flagging and documented remediation
- **Cross-functional stakeholder collaboration:** Led 25+ portfolio reviews/week partnering with multiple advisors; built real-time auto-refreshing Power BI control dashboard to flag overdue reviews and prevent loss of advisory fees due to missed MAAR deadlines (20% YoY improvement)
- **Client satisfaction & communication:** Improved CSAT from 4.8 to 4.9 (across 250+ financial plans) within 18 months through strong written and verbal communication, translating complex client goals into actionable portfolio allocations and execution strategies
- **Portfolio analytics & reporting:** Developed idle-cash analytics dashboard to identify cash drag and recommend reallocations; achieved ~20% higher yields versus prior idle balances across 80% of 100+ managed accounts

#### Accenture

Premium Accounting Analyst

Mar 2021 – Dec 2022

- **Recognition:** Best People Award (2021) — awarded to top 5% of Accenture Operations employees for high performance, business impact, and operational excellence
- **Excel automation & VBA expertise:** Automated 20+ recurring accounting tasks using Excel Macros (batch reconciliations, variance checks, close packs) with run-logs and alerts; achieved 40% reduction in turnaround time and maintained 95% SLA adherence
- **Data analysis & exception monitoring:** Prevented \$200K+ potential errors through implementation of exception-checking rules; contributed to pilot predictive-analytics review; reconciled U.S. insurance premium payments for Prudential Financial process and resolved \$50K+ discrepancies
- **Power BI reporting & audit support:** Unified multi-source reports in Power BI to support audits, identify underpayments, and document remediation evidence; recovered \$50K+ with 100% policy adherence
- **Cross-functional support & process documentation:** Saved \$8,000 annually by cross-training and independently executing production-level workflows across financial validation and premium-payment discrepancy resolution teams; authored 30+ SOPs defining inputs, approvals, exception handling, and QC checkpoints

### CERTIFICATIONS

- PL-300: Microsoft Power BI Data Analyst
